

Aspen 4151-TC Noncombustible Fireplace Mantel Fact Sheet

FEATURES AND SPECIFICATIONS

Material meets the requirements for non-combustibility in accordance with ASTM E-136

- High definition, crisp details
- Adjustable height
- Fast, easy installation
- Material is sealed from the factory and requires no further finishing
- Supplied in 3 pieces
- Net weights:

Complete mantel:	90 lbs
Mantel top:	60 lbs
Each mantel leg:	15 lbs
- Crated weight: 120 lbs

Marble, stone, or other noncombustible filler panel material (not supplied with mantel) combined with adhesive must accommodate 1" cavity at mantel legs to support the bearing surface of the inside edges of the mantel shelf and legs against the wall on the firebox side, and to cover the wall area between the firebox opening and mantel components. At least 1" of the surround filler panel should extend behind the inside edges of the mantel for support.

All dimensions & weights are approximate

DO NOT SCALE
